

HOPESHARES

At HopeShares we invest in the health and effectiveness of community leaders to honour their calling and achieve their mission.

COMMUNITY LEADERS

Community Leaders are individuals who have leadership responsibility within their organizations. These individuals are working in developing nations building sustainable, community-focused projects around the world.

At HopeShares, we have gained years of on-the-ground experience, which we combine with a range of strategies and resources for equipping Community Leaders to build thriving organizations and ultimately change their communities.

GET INVOLVED

There are many ways that you join our community of supporters to make a difference in a leaders life today.

Contact us to find out more.

OUR APPROACH

COACHING

Leaders of international organizations are facing insurmountable challenges. We provide guidance as they work through them.

COMMUNITY

We equip and encourage our community Leaders through in person opportunities with each other as well as with HopeShares staff and board.

CONNECTIONS

HopeShares builds connections between community leaders and external networks to facilitate skill sharing and insight.
